Many people confuse procedures and work instructions. In fact, most people write work instructions and call them procedures. Knowing the difference between procedures and work instructions can help you understand the documentation process much better and, therefore, develop great procedure documentation.

Difference Between Procedures and Work Instructions?

With this in mind, it is less than ideal that most quality systems are based on written work instructions. Perhaps this is because most of us find it easier to write a document than to create an instructional video? As you will see here, modern video tools mean that it is now much easier to create visual work instructions.
