Project Management Managerial Approach 8th

Project management is the practice of initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time.. The primary challenge of project management is to achieve all of the project goals within the given constraints. This information is usually described in project documentation, created at the ...

Project management - Wikipedia

In project management, a schedule is a listing of a project's milestones, activities, and deliverables, usually with intended start and finish dates. Those items are often estimated by other information included in the project schedule of resource allocation, budget, task duration, and linkages of dependencies and scheduled events. A schedule is commonly used in the project planning and project ...
