Robson Research Real World Second

This suggests that real world researchers may need to be somewhat innovative in their approach, not automatically following research traditions when they do not quite fit the purposes and context of the research task. Fortunately, researchers do already seem to be more eclectic in their actual research

research is the next step. Research can follow various routes of investigation or enquiry: research can be used to explain, evaluate or emancipate, explore, and/or describe the received material (Cargan, 2008, p. 6-7; Robson, 2002, p. 59-60). Exploratory research includes relatively unstudied areas or new topics and generates ideas and
