The examples I show are examples of what makes great end user documentation. 1 - Write great titles. Great end user documentation consists of titles that are specific, and often in the form of performing a task. This not only makes it easier for your end users to find what they are looking for, but it helps you write better articles.

A quick start guide or quickstart guide (QSG) is in essence a shortened version of a manual, meant to make a buyer familiar with his or her product as soon as possible. This implies the use of a concise step-based approach that allows the buyer to use a product without any delay, if necessary including the relevant steps needed for installation.
