To write a training manual, start by compiling all of the information the manual needs to cover and then determining whether dividing it into chapters, sections, or parts would work best. Then, organize the information and create a table of contents and index so your manual is easy to navigate.

### **3 Ways to Write a Training Manual - wikiHow**

Developing a training manual is an important part in designing a formal training program. A formal training manual ensures consistency in the presentation of the training program. Another major advantage is that all the training information on skills, processes, and other information necessary to perform the tasks is together in one place.
