drawings are used. This is so that any designers here, and in other countries, will be able to 'read' and interpret each other's drawings in exactly the same way. Components (machine parts) shown in a drawing can therefore be made by suitably skilled craftsmen of any nationality, provided they can 'read' an engineering drawing.

### **ME1105 Engineering Drawing & Design**

An engineering drawing, a type of technical drawing, is used to fully and clearly define requirements for engineered items.. Engineering drawing (the activity) produces engineering drawings (the documents). More than merely the drawing of pictures, it is also a language—a graphical language that communicates ideas and information from one mind to another.
