Call for Research Paper, Journal Call for Papers 2019

The success of shotgun proteomic analysis depends largely on how samples are prepared. Current approaches (such as those that are gel-, solution-, or filter-based), although being extensively employed in the field, are time-consuming and less effective with respect to the repetitive sample processing, recovery, and overall yield. As an alternative, the suspension trapping (S-Trap) filter has ...

Earthquake is one of the most horrific and devastating natural phenomena, which can cause great damage to the areas it take place in, prolonged economic chaos, and even kills scores of innocent people. The worst thing is that this incredible destructive force can occur quite unpredictably, as it's a sudden slip in the earth's crust, causing the earth to shake and bringing huge harm to society.
