The Raspberry Pi is a series of small single-board computers developed in the United Kingdom by the Raspberry Pi Foundation to promote teaching of basic computer science in schools and in developing countries. The original model became far more popular than anticipated, selling outside its target market for uses such as robotics. It does not include peripherals (such as keyboards and mice) and ...

With a minimum setup, you can boot the Raspberry Pi 3 by connecting the micro USB's PWR IN port with a computer's USB port (tested on a Mac and Windows). However, there can be an indicator that pops up on the monitor. If you see a small rainbow square in the corner of your screen, your power supply ...

A few days ago we posted about RpiTx, a piece of software that allows you to turn your Raspberry Pi into a multi purpose transmitter by modulating the output on one of the GPIO pins.. Now over on YouTube user HA7ILM has uploaded a video showing his related software qtcsdr. Qtcsdr runs on the Raspberry Pi and interfaces with an RTL-SDR dongle and RpiTx to create a simple transceiver radio.

OpenVINO, OpenCV, and Movidius NCS on the Raspberry Pi. In this blog post we're going to cover three main topics. First, we'll learn what OpenVINO is and how it is a very welcome paradigm shift for the Raspberry Pi.

### **OpenVINO, OpenCV, and Movidius NCS on the Raspberry Pi**

The Raspberry Pi does not have a microphone socket, which is inconvenient when you wish to record sound. To fix this you will need a USB Sound Card, for which I bought a Creative Sound Blaster Play! for about £20 and a short USB extension lead as the sound card is slightly too large and blocks the other USB port.. With the latest Raspbian "wheezy" installed on a Pi Model B with 512Mb of ...

Assigning a value to a Python variable is fairly straightforward. You put the variable name first, then an equal sign (=), and finish up with the value you are assigning to the variable. This is the syntax: Listing 4.13 creates the variable coffee\_cup and assigns a value to it. You cannot use a ...
