Deodorant poisoning occurs when someone swallows deodorant. Your local poison center can be reached directly by calling the national toll-free Poison Help hotline (1-800-222-1222) from anywhere in the United States. This national hotline number will let you talk to experts in poisoning.

Deodorant poisoning: MedlinePlus Medical Encyclopedia

The history of medicine shows how societies have changed in their approach to illness and disease from ancient times to the present. Early medical traditions include those of Babylon, China, Egypt and Mesopotamia. The Hippocratic Oath was written in ancient Greece in the 5th century BCE, and is a direct inspiration for oaths of office that physicians swear upon entry into the profession today.

History of medicine - Wikipedia

Globe rupture occurs when the integrity of the outer membranes of the eye is disrupted by blunt or penetrating trauma. Any full-thickness injury to the cornea, sclera, or both is considered an open globe injury and is approached in the same manner in the acute setting.

Globe Rupture: Background, Pathophysiology, Epidemiology

When to seek medical advice. Get prompt medical care if you have nasal congestion accompanied by: A high or persistent fever; Greenish or bloody nasal discharge

Nasal congestion - Mayo Clinic

Find possible causes of symptoms in children and adults. See our Symptom Checker.

Pelvic pain: Male - Mayo Clinic

Focal swelling of the eyelid is a common complaint in both primary care and urgent care settings. Often, such swelling is identified as either a chalazion, appearing as a characteristically hard and painless lid nodule, or a hordeolum (stye), although several other benign and malignant processes can be mistaken for these two.

Chalazion: Background, Pathophysiology, Etiology

Major trauma is any injury that has the potential to cause prolonged disability or death. There are many causes of major trauma, blunt and penetrating, including falls, motor vehicle collisions, stabbing wounds, and gunshot wounds. Depending on the severity of injury, quickness of management and transportation to an appropriate medical facility (called a trauma center) may be necessary to ...

I specialize in rehabilitation medicine, and the majority of the people I treat have musculoskeletal injuries or disorders. My goal as a physician is to provide my patients with expert and innovative medical care.

Jeffrey M. Gross, MD | NYU Langone Health

BRAIN AND ELECTROLYTES. Electrolyte homeostasis in the central nervous system (CNS) is essential for brain function. Regulation of ionic balance is a critical process involving a complex array of molecules for moving ions into and out of the brain and involving blood-brain barrier function as well as mechanisms in the membranes of both neurons and glia.

Az égési sérülés az izom- vagy hámszövet olyan sérülése, amelyet hő, elektromosság, vegyi anyagok, súrlódás vagy sugárzás okoz. Azt az égést, amely csak a bőr felszínét érinti, felületes vagy elsőfokú égésnek nevezik. Amikor a sérülés a mélyebb rétegek egy részéig hatol, akkor részleges mélységű vagy másodfokú égésről lehet beszélni.
