A research proposal is a document proposing a research project, generally in the sciences or academia, and generally constitutes a request for sponsorship of that research. Proposals are evaluated on the cost and potential impact of the proposed research, and on the soundness of the proposed plan for carrying it out. Research proposals generally address several key points:

A common challenge when beginning to write a research paper is determining how to narrow down your topic. Even if your professor gives you a specific topic to study, it will almost never be so specific that you won't have to narrow it down at least to some degree [besides, it is very boring to grade fifty papers that are all about the exact same thing!].
