Pinel, Biopsychology | Pearson

Delves into how the central nervous system governs behavior . Biopsychology, 9/e, introduces the study of the biology of behavior; that is, the neural mechanisms of psychological processes in the central nervous system. This program combines biopsychological science and student-oriented discussion, interweaving the basics of this specialized field with clinical case studies and exploring the ...

Biopsychology, 9th Edition - MyPearsonStore

Biopsychology clearly presents the fundamentals of the study of the biology of behavior and makes the topics personally and socially relevant to the student. The defining feature of Biopsychology is its unique combination of biopsychological science and personal, reader-oriented discourse. It is a textbook that is "untextbooklike." Rather than introducing biopsychology in the usual textbook ...

Chapter 2 Biopsychology Flashcards | Quizlet

Expect each of them to be revised periodically. Biological psychology heavily overlaps neuroscience, but, as a rule, textbooks with the word neuroscience in the title tend to put more emphasis on the physiology and biochemistry of the nervous system. Those with the title biological psychology tend to put more emphasis on application to behavior.
