In economics, stagflation is a situation in which the inflation rate is high, the economic growth rate slows, and unemployment remains steadily high. It presents a dilemma for economic policy, since actions intended to lower inflation may exacerbate unemployment, and vice versa.. The term, a portmanteau of stagnation and inflation, is generally attributed to Iain Macleod, a British ...

I find this blog article as incorrect as many blogs that criticise economists. Every statement made is partly truth. For example, 'market fundamentalism' is coined by Stiglitz where he states that decision makers of the worldbank follow a simple neoclassical approach to government interference in markets.

En économie, un bien public est un bien non rival. La consommation de ce bien par un agent n'affecte donc pas la quantité disponible pour les autres agents (non-rivalité). Un bien public pur est un bien non rival et non excluable, il est difficile de faire payer l'accès à ce bien (non-excluabilité).

Bien public — Wikipédia

The 2008 financial crisis was complex and had numerous contributing factors. Consequently, many people have misdiagnosed the problem or overemphasized some factors and underemphasized other, more important factors. The sheer volume of factors, some of which cross analytical disciplines, such as macroeconomics and geopolitics, also obfuscate accurate diagnosis of cause and effect.
