Introduction to Engineering Design-PLTW - Weebly

Overview. Your students have probably walked or ridden over a bridge at some point in their lives. In this engineering activity they will design and make bridges out of folded pieces of paper, and test how much weight they can hold with pennies.

Paper Bridge Design Challenge | Lesson Plan

Activity 1.8 Instant Challenge: Paper Bridge Conclusion Questions 1 Why do you think brainstorming is helpful when solving a problem? I think that brain storming is important because it let us try and fail on regular paper before the cardstock. 2 How did testing improve your design? We were able to increase distance with a new design due to testing.
