The psychometric properties (reliability and validity) of the measurement instruments were evaluated by a confirmatory factor analysis (CFA) containing all the multi-item constructs in our theoretical framework by using EQS 6.1 (Bentler, 1995). Results of the CFA are provided in Table 2 suggesting that our measurement model provides a good fit to the data on the basis of a number of fit statistics.

One of the best spots to sample the spirits is the Mileştii Mici winery, whose 120 miles of underground tunnels hold the world's largest collection of wine. It's a must-see in Moldova, and our group made the pilgrimage to sample red, whites and sparkling wines from local vineyards in a tasting room dating back centuries.

IN THE LATE 1940s and early 1950s, a distinguished psychiatrist named Dr. Fredric Wertham made a name for himself in the United States by leading a crusade against violent comic books. His 1954 book exposing the comic-book industry, *Seduction of the Innocent*, is still remembered in American comics fandom as a wildly exaggerated and overwrought polemic and has gone on to become a

Pubic hair is terminal body hair that is found in the genital area of adolescent and adult humans. The hair is located on and around the sex organs and sometimes at the top of the inside of the thighs. In the pubic region around the pubis bone, it is known as a pubic patch. Pubic hair is found on the scrotum in the male and on the vulva in the female. ...

In this issue of 580 Split, we invited writing and visual art that reflects on the breaches of our current political climate, the ways these breaches have scarred and marked us, and moments that break through the surface of the status quo to create something new. Though these are dangerous times for the vulnerable and marginalized among us, we were interested in writing that explores the ...
