Overseas Qualifications. Many electricians come to work in the UK. For electricians from a number of countries your qualifications will count towards UK qualifications, but to work as an unsupervised electrician you will still need to undertake further assessment to confirm your understanding of electrical installation requirements in the UK.

How to become an electrician | Electrical Qualifications

Electrical wiring is an electrical installation of cabling and associated devices such as switches, distribution boards, sockets, and light fittings in a structure.. Wiring is subject to safety standards for design and installation. Allowable wire and cable types and sizes are specified according to the circuit operating voltage and electric current capability, with further restrictions on the ...

Electrical wiring - Wikipedia

For new installations and rewires, all socket-outlets with a rated current not exceeding 32A need to have additional protection by RCD, except where other than for an installation in a dwelling, a documented risk assessment determines that the RCD protection is not necessary.
