Real Analysis, Study Guide, Chapter 5 The Derivative of a Real Function Rudin 5.1 Definition: Derivative/Differentiable (Lecture Notes 2/9/11) Let  $f$  be defined (and real valued) on  $[a, b]$ . For any  $x \in [a, b]$  form the quotient  $\phi(t) = (a < t < b, t \neq x)$ , and define  $f'(x) = \lim_{t \rightarrow x} \frac{f(t) - f(x)}{t - x}$ , provided this limit exists. We thus associate with the function  $f$  a function  $f'$  whose domain is the set of points  $x$

COMMENTS FOR THE INSTRUCTOR USING RUDIN'S PRINCIPLES OF MATHEMATICAL ANALYSIS

George M. Bergman, 1/98, major revisions 8/03, 7/04, 5/06, 12/06 gbergman@math.berkeley.edu In 1993, after teaching from Rudin's Principles of Mathematical Analysis, and noting some errata and points that could use clarification, I wrote the author, and convinced him to make some of these changes.

**COMMENTS FOR THE INSTRUCTOR USING RUDIN'S PRINCIPLES OF ...**

I'm not quite sure if my question belongs to this section or not, so I hope I would be posting it in the right place. Anyway, I have troubles understanding Rudin's principals of mathematical analysis. To me, everything he says, is absurd. I can't understand what he says, neither do I want to ...

**How to study mathematical analysis? | Physics Forums**

Rudin is the standard teaching book for a reason, but it is not good for self-study. If you have no background in analysis, then starting with something like Binmore's book is probably a better option, as it's much more concrete and based on examples that a calculus student would be familiar with. After that you'll pretty quickly need to move to something at a higher level.

**How to self-study real analysis - Quora**

Walter Rudin (May 2, 1921 – May 20, 2010) was an Austrian-American mathematician and professor of Mathematics at the University of Wisconsin–Madison.. In addition to his contributions to complex and harmonic analysis, Rudin is known for his mathematical analysis textbooks: Principles of Mathematical Analysis, Real and Complex Analysis, and Functional Analysis (informally referred to by ...
