An electromagnetic field (also EMF or EM field) is a physical field produced by electrically charged objects. It affects the behavior of charged objects in the vicinity of the field. The electromagnetic field extends indefinitely throughout space and describes the electromagnetic interaction. It is one of the four fundamental forces of nature (the others are gravitation, weak interaction and ...

Writing a list of references. At the end of all pieces of academic writing, you need a list of materials

that you have used or referred to. This usually has a heading: references but may be bibliography or works cited depending on the conventions of the system you use. The object of your writing is for you to say something for yourself using the ideas of the subject, for you to present ideas you ...
