Guide is an update of ACI 524, "Guide to Portland Cement Plastering," which was published in 1964. There are a number of revisions reflecting increased knowledge of plaster and the use of current materials and methods. Recommendations for producing good portland cement-based plaster are described.

Guide to Portland Cement Plastering

Stucco, or portland cement plaster, is a versatile facing material that can be applied to flat or curved surfaces either inside or outside any building or structure. Stucco has great appeal as a surface finish because of its utility, low first cost, and minimum need for maintenance. In its hardened state, plaster is a desirable facing material: hard, strong, fire-resistant, and color-retentive.
