Probability For Risk Management 2nd

Security risk management involves protection of assets from harm caused by deliberate acts. A more detailed definition is: "A security risk is any event that could result in the compromise of organizational assets i.e. the unauthorized use, loss, damage, disclosure or modification of organizational assets for the profit, personal interest or political interests of individuals, groups or other ...

Risk - Wikipedia

Many authors refer to risk as the probability of loss multiplied by the amount of loss (in monetary terms). Is this right, or at least acceptable, as a definition of risk?

There is a definition of risk by a formula: "risk ...

Enterprise risk management (ERM) in business includes the methods and processes used by organizations to manage risks and seize opportunities related to the achievement of their objectives. ERM provides a framework for risk management, which typically involves identifying particular events or circumstances relevant to the organization's objectives (risks and opportunities), assessing them in ...

Enterprise risk management - Wikipedia

These definitions encompass welcome 'up-side' as well as unwelcome 'down-side' effects. In spite of this, there is still a tendency for practitioners to think of risk in largely down-side, threat terms (a tendency which the authors are not always able to resist), and PRM as primarily threat management.
