Canvas documentation and examples > Chart Types > Pie chart API reference; Pie chart API reference. Documentation about the Pie chart including information about all of the options that are available to you. The Pie chart can show a single dataset and with the donut option it can show multiple datasets.

Pie chart API reference | RGraph

The Pie of Pie Chart is a built-in chart type in Excel. Pie charts are meant to express a "part to whole" relationship, where all pieces together represent 100%. Pie charts work best to display data with a small number of categories (2-5). The Pie of Pie Chart provides a way to add additional categories to a pie chart without generating a pie chart too complex to read.

Pie of Pie Chart | Exceljet

Another is to provide the code needed in a way the developer can simply copy and paste. You'll find plenty of examples of documentation where the code is almost ready to go: just insert your API key here, or include the appropriate cURL command to make a complete API request.
