How Far Will It Fly? Build & Test Paper Planes with ...

Middle School Activity ... The wings compress the air below the paper airplane, creating high pressure, and thus the airplane is able to "sit" and glide on the air. Moving the rudders, ailerons, or flaps up or down can change the flight path of an airplane. For example, folding down the wing flaps can result in a nosedive and folding up the ...

Paper Airplanes: Building, Testing, & Improving. Heads Up ...

Paper Airplane Science During my undergraduate education at Penn State, I learned that students learn best when they are in the driver's seat – when they are figuring out what to study, when they are designing the study, when they are identifying the problem and creating the experiment. This is not usually feasible in a public school setting, but in a homeschool, why not?
