Looking for some websites that may have some examples of nursing documentation, charting, or nurses notes. If anyone knows of any please let me know. Thanks.

your sample nclex questions helped me out alot too in my nursing classes. much of the content was similar to test content. I am so glad I found your site, thank you once again for posting all of this.

The importance of proper documentation in nursing cannot be overstated. Failure to document a patient's condition, medications administered, or anything else related to patient care can result in poor outcomes for patients, and liability issues for the facility, the physician in charge, and the nurse(s).

Explain nursing documentation requirements for specific aspects of care, including critical diagnostic results, medications, non-conforming patient behavior, pain, patient and family involvement in care, restraints, and prevention of falls, infections, pressure ulcers, and suicide.

Charting and Documentation. Documentation of the care you give is proof of the care you provide. Any attorney or risk manager should be able to reconstruct the care the patient received after reviewing a chart. Charting should include assessment, intervention, and patient response. Charting should occur when a patient is transferred - before, during,...

When Documenting Do. Good documentation is an important part of improving both patient care and nursing practice. Proper documentation promotes safe patient care, good communication among staff members, and the advancement of the nursing profession. To find out more about the specific documentation standards where you practice, contact your state board of nursing.

documentation in the medical record. 4. Discuss the emerging documentation concerns regarding the faxing and computerization of records. 5. Determine documentation Do's and Don'ts. 6.
