A cylinder is a geometric surface formed by the points at a fixed distance from a given straight line, forming what's called the axis of a cylinder. The solid surface of the two bases joined by the height that's formed by two perpendicular lines to the axis, is also called a cylinder. Below, we'll show you step-by-step, how to make a cylinder out of cardboard.

How to Make a Cylinder out of Cardboard - 8 steps

we tried everything that we could and it turned out that some duck tape works the best. It makes a great toy (I even used it in one of my school projects) and I think it is much easier to make than a paper one.
