Sensation and Perception By Adam John Privitera. Chemeketa Community College. The topics of sensation and perception are among the oldest and most important in all of psychology. People are equipped with senses such as sight, hearing and taste that help us to take in the world around us.

Sensation and Perception | Noba

Why study sensation and perception? Without sensations to tell us what is outside our own mental world, we would live entirely in our own minds, separate from one another and unable to find food or any other basics that sustain life. Sensations are the mind's window to the world that exists around us.
