Medical Errors in Nursing: Preventing Documentation Errors The importance of proper documentation in nursing cannot be overstated. Failure to document a patient's condition, medications administered, or anything else related to patient care can result in poor outcomes for patients, and liability issues for the facility, the physician in charge, and the nurse(s).

Prevent Documentation Errors in Nursing | Medcomrn.com

Incomplete documentation in patient clinical records can cause your organization legal and settlement fees, cause you to lose your license, contribute to inaccurate statistical databases, cause lost revenue/reimbursement, and result in poor patient care by other healthcare team members. That's why every organization should ensure accurate and complete clinical documentation (at any cost).

Poor documentation: The consequences - www.hcpro.com

Electronic documentation habits such as copy and paste save valuable time, but they can ruin the record. As the patient's health worsened, a hospital stay of days turned to weeks. But through the various tests and physician visits, the progress notes generated in the hospital's electronic record system looked similar.

Documentation Bad Habits: Shortcuts in Electronic Records ...

For a coder, "poor documentation would be defined as documentation that lacks the sufficient specificity to assign accurate diagnosis and procedure codes," Siegel says. In general, Stewart says poor documentation is defined as that which is lacking clarity, specificity, or completeness, and is of overall poor quality.
