Shigeru Ban (平井 隆雄, Ban Shigeru, born 5 August 1957) is a Japanese architect, known for his innovative work with paper, particularly recycled cardboard tubes used to quickly and efficiently house disaster victims. He was profiled by Time magazine in their projection of 21st-century innovators in the field of architecture and design.. In 2014, Ban was named the 37th recipient of the Pritzker ...

### **Shigeru Ban - Wikipedia**

It seems instead of "paper architecture" you could have referred to the trend of the last decade as "digital architecture". The connection is clear in your essay, just is bit of word play that would drive home the difference in the production and subsequent publication between the speculative architecture of two eras.

She is currently Editor for +Impact (Positive Impact) Magazine - the official publication of the Green Building Council South Africa. She writes freelance as The Paper Architect while still being actively engaged in the architectural world.

### **About - The Paper Architect**

The phrase 'paper architecture' has often been used pejoratively to refer to architects making utopian, dystopian or fantasy projects that were never meant to be built, and in Russia specifically to those producing avant-garde work following the clamp down of the mid-1950s that also abolished the Academy of Architecture in 1957.
