Edmonton Obesity Staging System Wednesday, February 11, 2009. Regular readers of these pages may remotely recall that last year I complained about how BMI does not always allow us to make rational clinical decisions regarding obesity management, because measures of weight (such as BMI) do not reflect severity of obesity in a given individual.

Edmonton Obesity Staging System - Dr. Sharma

Over the past thirty years, the prevalence of obesity and obesity-related diseases in the U.S. has risen sharply. Since the early 1970s, the share of children age 6 to 19 classified as overweight has more than tripled, from 5 percent to 17 percent, while the share of adults classified as overweight ...

Do Fast Food Restaurants Contribute to Obesity?

Coverage of obesity in the British press has doubled in the past year and threatens to become an 'epidemic' in its own right. It is almost impossible to pick up a daily or Sunday paper without being exposed to headlines featuring words such as 'time-bomb' and ill-founded assertions that the present generation of children will die before their parents.

Poverty and obesity - Social Issues Research Centre
