Inbound Logistics' 2010 Summer Reading Guide

This book is about the principles, frameworks and processes that enable the aligning of a company's specific customer value proposition with its operations strategy.The book is built around 33 rules that cover all possible aspects of supply chain operations and management, and that are placed throughout the eleven chapters of the book.

Book Review: Operations Rules - husdal.com

An expert offers a set of rules that will help managers achieve dramatic improvements in operations performance. In recent years, management gurus have urged businesses to adopt such strategies as just-in-time, lean manufacturing, offshoring, and frequent deliveries to retail outlets. But today, these much-touted strategies may be risky.
