Moving to subjects' actual behavior, the findings from the replication are clearly different from those predicted by H&B. Instead of observing a decline in choice of the high-awareness brand over the five trials, a U-shaped curve was observed .The majority (86%) of subjects chose the well-known

brand on the first trial, but after selecting this brand one or two times on subsequent trials, some ...

The environmental impact of paper is significant, which has led to changes in industry and behaviour at both business and personal levels. With the use of modern technology such as the printing press and the highly mechanized harvesting of wood, disposable paper became a relatively cheap commodity, which led to a high level of consumption and waste. The rise in global environmental issues such ...
