Powerpoints for Digital Image Processing - Pearson

Image Processing Seminar and PPT with pdf report: The purpose of image processing is divided into 5 groups. They are: Visualization – Observe the objects that are not visible, Image sharpening and restoration – To create a better image, Image retrieval – Seek for the image of interest, Measurement of pattern – Measures different objects in an image and Image Recognition – Separate ...

Image Processing Seminar ppt and pdf Report - Study Mafia

Digital Image Processing is concerned with acquiring and processing of an image. In simple words an image is a representation of a real scene, either in black and white or in color, and either in print form or in a digital form i.e., technically an image is a two-dimensional light intensity function.
