Hey Rebecca, When I am creating my quick reference guides, I always write them first without screenshots. As part of a review, I find someone around the office and have them run through the steps and see if they are simple enough without the added images and we quickly figure out where screenshots could go, if any.

The examples I show are examples of what makes great end user documentation. 1 - Write great titles. Great end user documentation consists of titles that are specific, and often in the form of performing a task. This not only makes it easier for your end users to find what they are looking for, but it helps you write better articles.
