How does this relate to early childhood education and primary education? As Vygotsky believed that children learn through socialisation, role-modelling and ZPD and as children are active constructors of their beliefs through what they witness their role models and most influential peers participating in, children absorb the idea that bullying and victimising others is acceptable.

Human sexuality is the way people experience and express themselves sexually. This involves biological, erotic, physical, emotional, social, or spiritual feelings and behaviors. Because it is a broad term, which has varied over time, it lacks a precise definition. The biological and physical aspects of sexuality largely concern the human reproductive functions, including the human sexual
