As Rita Mulcahy writes in one of her prep books for the PMP ® certification exam, “ Do not underestimate the value of the project charter. It is such an important document that a project should not be started without one. If the project charter serves as a definition of how success will be measured, then without a project charter, the project and project manager cannot be successful”.

### **Importance of Project Charter in Project Management**

I am looking for a tool which will take an XML instance document and output a corresponding XSD schema. I certainly recognize that the generated XSD schema will be limited when compared to creating a schema by hand (it probably won't handle optional or repeating elements, or data constraints), but it could at least serve as a quick starting point.

### **Any tools to generate an XSD schema from an XML instance ...**
