Electronic music is music that employs electronic musical instruments, digital instruments and circuitry-based music technology. In general, a distinction can be made between sound produced using electromechanical means (electroacoustic music), and that produced using electronics only. Electromechanical instruments include mechanical elements, such as strings, hammers, and so on, and electric ...

The idea to document a failed project is not mine. When I read this post by Hackaday, I realized that I do have a project that failed which I don't want to simply trash. Some valuable insights have been gleaned while working on it and I am planning to reuse many of the parts and the software in a different project.
