diversity is the benchmark from which any student of things Spanish must depart. It is essential to realize that outsiders can legitimately consider some of Spain's diversity as imagined every bit as much as its unity might be—that is, Spaniards sort their differences with a fine-toothed comb and create measures of local and regional differences which might fail tests of general significance ...

A race is a grouping of humans based on shared physical or social qualities into categories generally viewed as distinct by society. First used to refer to speakers of a common language and then to denote national affiliations, by the 17th century the term race began to refer to physical (phenotypical) traits. Modern scholarship regards race as a social construct, an identity which is assigned ...

Why It Matters. Inflation's fundamental relationship with supply and demand means that inflation directly or indirectly affects nearly every financial decision, from consumer choices to lending rates, and from asset allocation to stock prices. The inflation rate also offers important clues about the state of an economy. Most economists agree that moderate inflation is a sign of a growing ...
