Auntie Psychiatry says: October 27th 2018 SPB: "To boot there is a gene test which has been around for a long time which predicts the phenotype (strength of enzymes) but nobody in the UK gets this test and few know about it." I've been trying to dig into this - it seems that public awareness in the US is much more advanced, and the American Psychiatric Association is clearly getting nervous.

Å sgård psychiatric hospital in Tromsø, Norway is a rather tired-looking facility, its squat buildings mindful of institutional architecture from the Cold War era, and in terms of its geographic location, it could hardly be located further from the centers of western psychiatry. Tromsø lies 215 miles north of the Arctic Circle, with tourists coming during the winter months to catch a ...

The field of psychology has extensively studied homosexuality as a human sexual orientation. The American Psychiatric Association listed homosexuality in the DSM-I in 1952, but almost immediately that classification came under scrutiny in research funded by the National Institute of Mental Health. That research and subsequent studies consistently failed to produce any empirical or scientific ...
