The River Avon / ' eɪ v ə n / is an English river in the south west of the country. To distinguish it from a number of other rivers of the same name, this river is often also known as the Bristol Avon. The name "Avon" is a cognate of the Welsh word afon, "river".. The Avon rises just north of the village of Acton Turville in South Gloucestershire, before flowing through Wiltshire.

A thermal power station is a power station in which heat energy is converted to electric power. In most of the places in the world the turbine is steam-driven. Water is heated, turns into steam and spins a steam turbine which drives an electrical generator. After it passes through the turbine, the steam is condensed in a condenser and recycled to where it was heated; this is known as a Rankine cycle.
